**Hare: Cut Loose**

**Venue: Dendy Park Brighton**

Cut Loose took us to the lovely green Dendy Park in Briiiiiighton for the year's first run. It was Codpiece's first hash since she was a dog's breakfast so Cut Loose sensitively chose the only off-leash dog park in Bayside to welcome her back.

Cut Loose set the run AND set the walk AND did the drink stop AND prepared all the food. She did the food and set the run with her Thermomix, but the walk and drink stop were done without mechanical aid.

### !!! Why no-one over the age of 25 should take selfies.!!!

During our recent walk through Spain and Portugal, Cut Loose took 8,746 photos of which:

85% were excellent,  
10% were good,  
4% were duds, (improvement required)  
1% were selfies, (improvement required)  
And some were of Astro. (Improvement required)

*Cut Loose had only seconds to take this selfie before she and Astro were engulfed by the Atlantic Ocean rushing in at an alarming 30 degree angle.*

*This one was taken in Paris. Her right eye was tired from winking at all those frisky Frenchmen.*

*Here Cut Loose demonstrates the shocking consequences of drink selfie-ing. Such high risk behaviour - taking selfies while you're older than 60 AND drinking margaritas.*

*Unsure why Astro is looking so glum –after all, it's not his face which is being sliced and diced.*

*The sad selfie. This is the face of a woman who's spent 100s of hours trawling booking.com searching for a hotel with curtains to exactly match her silk scarf, suddenly realising she hasn't got it quite right.*
